Departmental Records Officers (DRO)

IT Managers

Information Security Managers

Course Description

Following the HMG Data Handling Review the Minimum Mandatory Measures mandated the roles of Accounting Officer, Senior Information Risk Owner and Information Asset Owners

The objective of the course is to help SIROs and IAOs understand HMG Information Assurance policy and how it accords with current global standards good practice in Risk Management and Information Governance.

The course delivers a solid understanding of:

HMG Security Policy Framework and how the mandatory requirements translate into practical policies and procedures consistent with ISO 27001.

Information Security and Information Risk Assessment and mitigation

HMG policy on Knowledge Management and Intellectual Property and associated risk factors that the SIRO and the IAS may have to address.

At the end of the course SIROs and IAOs will have a clear view of their responsibilities, accountabilities and duties.

You will learn how to:

- Manage Information Assurance
- Foster a security aware culture across the organisation
- Understand risk assessment
- Identify areas of vulnerability
- Apply the 7 principles of the HMG Security Policy Framework
- Perform the Information Assurance Self Assessment
- Complete the Annual Information Risk return

Key Topics

- Detailed review of HMG IA policy
- Security principles and policies
- Information Risks and Risk Assessment methodologies
- Information Assurance assessment methodology
- Data Protection and FOI
